

COMfortel® XT-PS

Plug-in power supply for the supply
of the key extension module
COMfortel® Xtension300

Your advantages in detail

If the matching COMfortel system phone is powered via the system connection (ISDN bus or PoE) and a key extension module COMfortel Xtension 300 should be attached the optional power supply COMfortel

XT-PS ist necessary for the operation (exception: COMfortel 2600 IP). This power supply will feed all connected expansion modules. Starting with the second module it becomes necessary in any case.
